

Fable Hotels and Resorts win 12 prestigious accolades

BOUTIQUE LUXURY HOTELIER, FABLE HOTELS AND RESORTS, HAS TOWERED ABOVE THE COMPETITION IN THE ANNUAL HAUTE GRANDEUR AWARDS.

An incredible 12 new excellence awards have been won across three, 5-star properties, adding to the growing collection of accolades the brand has accumulated in the past two years.

In the world of Award initiatives, Haute Grandeur Global Awards is unmatched. Excellence is recognised through feedback from guests and not the number of votes by the general public or a panel of judges. The Awards inspire even greater success in already remarkable hospitality establishments and set a new standard of excellence.

Lisa Breckon, Director of Sales and Marketing, said it was an honour for the properties to receive a swathe of Excellence Awards only two years after opening its doors to the public. "These acknowledgements are a testament to our Fable team members who strove throughout the past year to create the highest possible standards and experiences for both their guests and their teams. We couldn't be prouder to receive these awards and represent New Zealand on a global stage."

When Fable was created, we dreamt of elevating boutique hotels to another place, with bespoke experiences that offer a curated experience bringing the best of contemporary world-class hospitality, combined with artful details to enjoy alongside twists of local wisdom and flavour. Our team worked hard over the last few years to bring this to life, and we are proud to see that recognised at the awards.
